Key Business Insights

(From the Analyzed Data)

1,800 orders generated approximately ₹12.74 crore in sales, with an overall profit margin of 39%.

Packaging Tools & Equipment and Material Handling are major sales contributors.

South region has the highest regional sales contribution, with Tamil Nadu leading at the state level.

Sales show monthly fluctuations, with a noticeable peak around November.

Medium customers contribute 43%, followed by Large 31% and Small 26%.

Meera has the highest sales contribution among salespersons.

On-time delivery is 45%, indicating an operational area for investigation.

Payment status analysis can help identify outstanding and partially paid accounts.

Sheet1DASHBOARD

Business Context & Problem Statement

A multi-function operation, generating data everywhere

- Customized & industrial packaging business — strapping, protective packaging, film, pallets, tools, cartons and material handling.
- Operations span Sales, Customers, Production, Inventory, Dispatch and Finance — each generating its own data.
- Reporting today is fragmented across functions, making it hard for management to see one consolidated picture.
- Leadership needs timely, trustworthy reporting to guide revenue, profitability, operations and working-capital decisions.

THE PROBLEM STATEMENT

“How can integrated business data be transformed into actionable insights for better revenue, profitability, operational efficiency and working-capital decisions?”

BUSINESS PROCESS FLOW

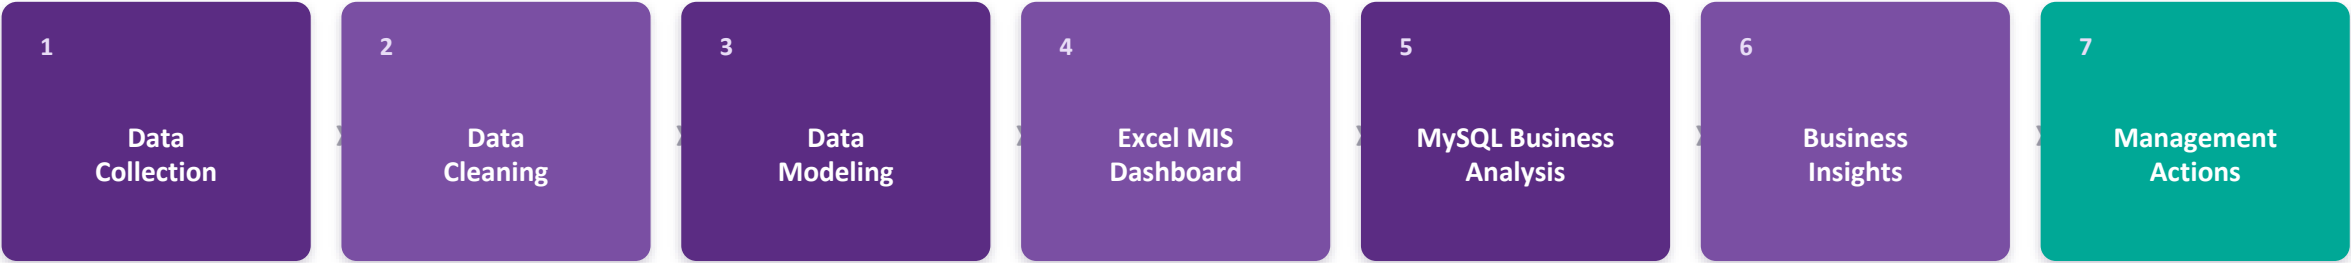

Data is distributed across Sales, Customers, Production, Inventory, Dispatch and Finance — this project consolidates it into one reporting layer.

Seven Data Domains, One Reporting Layer

7 linked tables · ~1,800 orders · 120 customers · 14 products

From Raw Data to Management Action

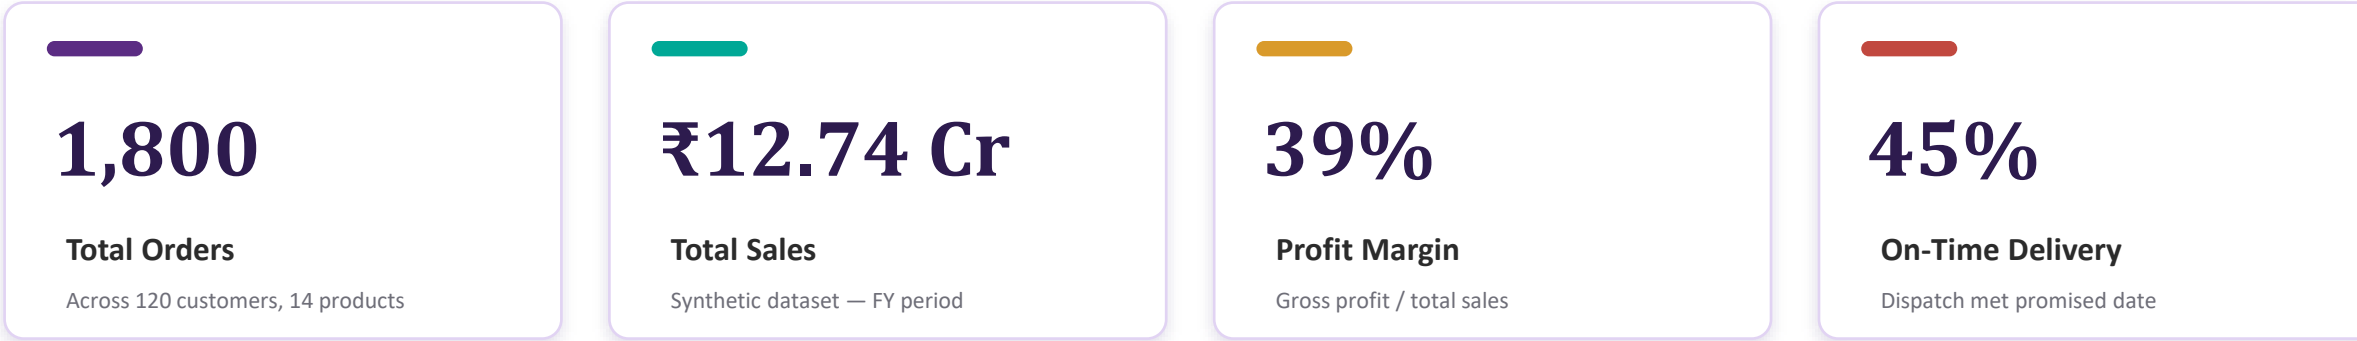

TOOLS & TECHNIQUES

Excel builds the consolidated MIS dashboard for day-to-day monitoring; MySQL performs deeper, question-driven analysis — customer concentration, margin outliers, inventory risk and delay patterns — that a dashboard alone can't surface. Together they turn six functional data domains into one narrative management can act on.

Executive KPI Dashboard

Consolidated view built in Excel with Power Query & Pivot Tables — sliced by Order Date, Payment Status and Industry.

Where the story starts

South is the strongest sales region

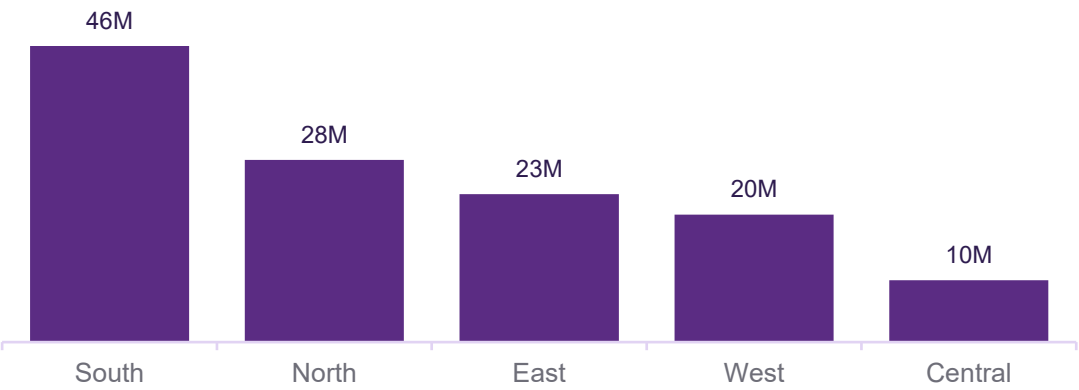

Tamil Nadu leads at state level

Medium customers drive ~43% of sales

November shows a sharp seasonal spike

Revenue & Sales Performance

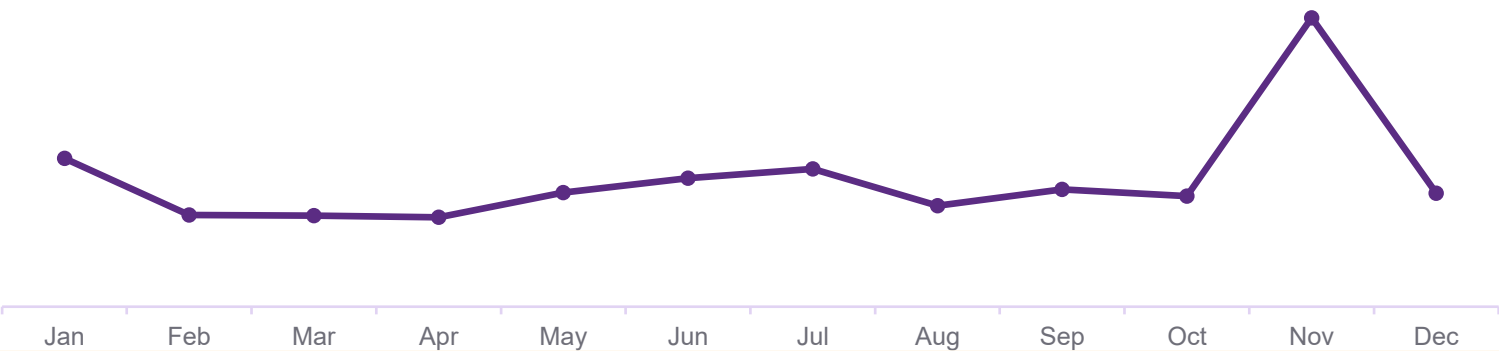

Sales by Region

Sales by Category

Monthly Sales Trend — 2025

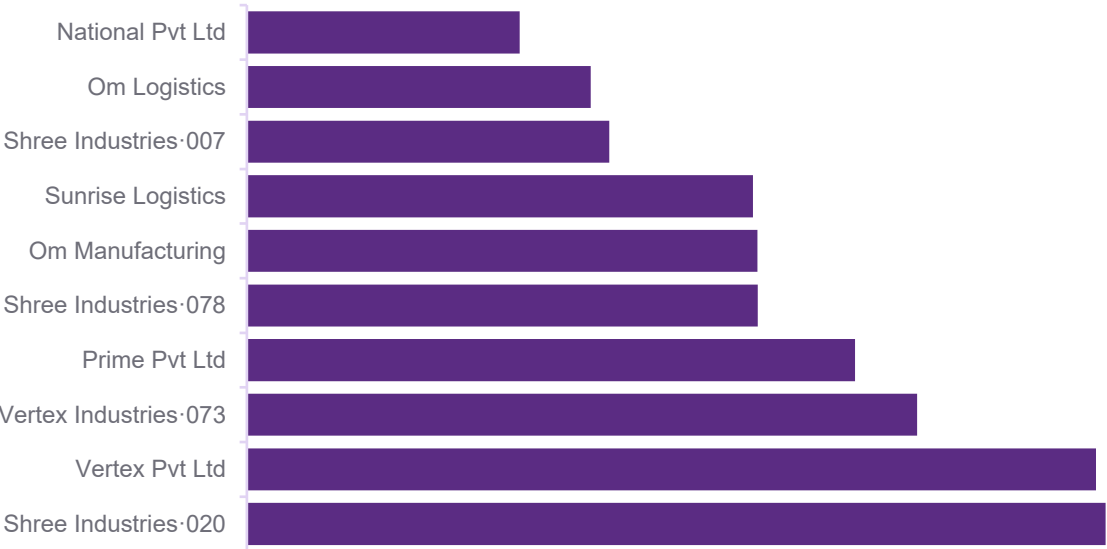

Revenue is concentrated in specific categories and geographies — Packaging Tools & Equipment, Material Handling, South region and Tamil Nadu together anchor overall performance.

SQL OUTPUT - CATEGORY SALES

Category	Total_Sales	Total_Quantity
Packaging Tools & Equipment	51502375.57	3630
Material Handling	40507679.52	3079
Pallet Solutions	9886923.78	6675
Protective Packaging	9122067.72	8317
Strapping Solutions	7999467.09	75505
Stretch / Film Solutions	7652416.06	10883
Customized Carton Boxes	714339.16	9731

Customer Intelligence

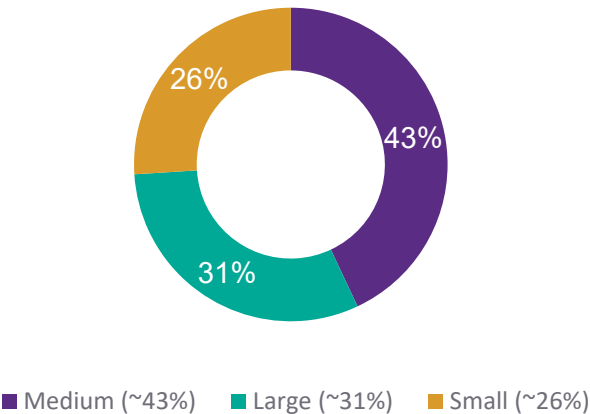

Top 10 Customers by Sales

A relatively small group of customers contributes a significant share of total revenue.

Concentration check: the top 20 of 120 customers (~17%) generate nearly half of total revenue — a concentration risk worth monitoring.

Sales Share by Customer Size

SQL OUTPUT · TOP 10 CUSTOMERS

Customer_ID	Customer_Name	Total_Orders	Total_Sales
CUST020	Shree Industries	28	6674405.11

Sales Team Performance

TOP SALESPERSON

Meera

*Highest sales contribution across the analyzed order set —
the benchmark for the rest of the team.*

HOW MANAGEMENT SHOULD READ SALES PERFORMANCE

Sales Volume

Total revenue closed — the headline number, but not the full picture on its own.

Gross Profit

Revenue alone can hide thin margins; profit contribution should be tracked alongside sales.

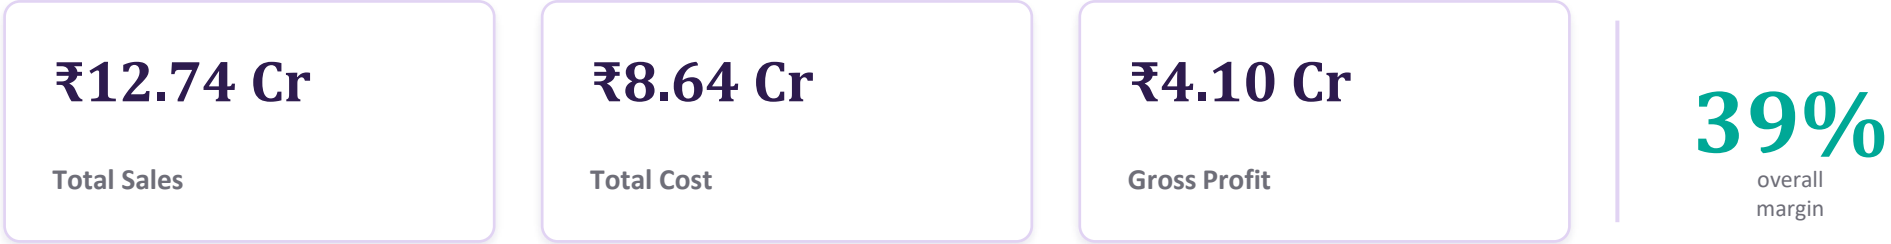

Average Order Value

Distinguishes reps building large, high-value accounts from those closing many small orders.

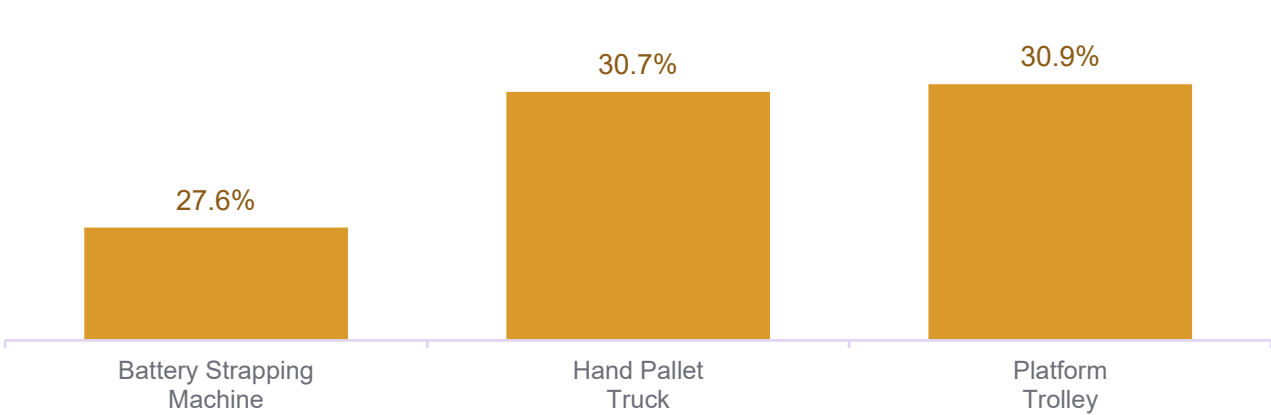

Ranking by revenue alone can reward volume over value. Compare salespeople on both sales AND profitability before setting incentives.

Profitability Analysis

High Revenue, Comparatively Lower Margin

“Which products generate strong revenue but lower margins?”

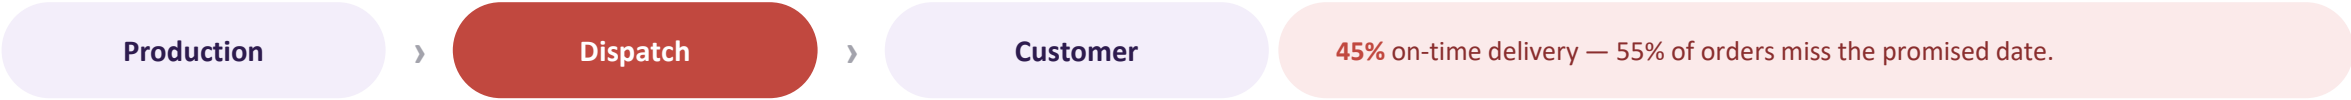

SQL OUTPUT · MARGIN OUTLIERS

Product_ID	Product_Name	Category	Total_Sales	Gross_Profit	Profit_Margin_Percent
P010	Battery Strapping Machine	Packaging Tools & Equipment	43255011.04	11943655.2	27.61
P014	Hand Pallet Truck	Material Handling	27596256.98	8482398.56	30.74
P013	Platform Trolley	Material Handling	12911422.54	3992193.08	30.92

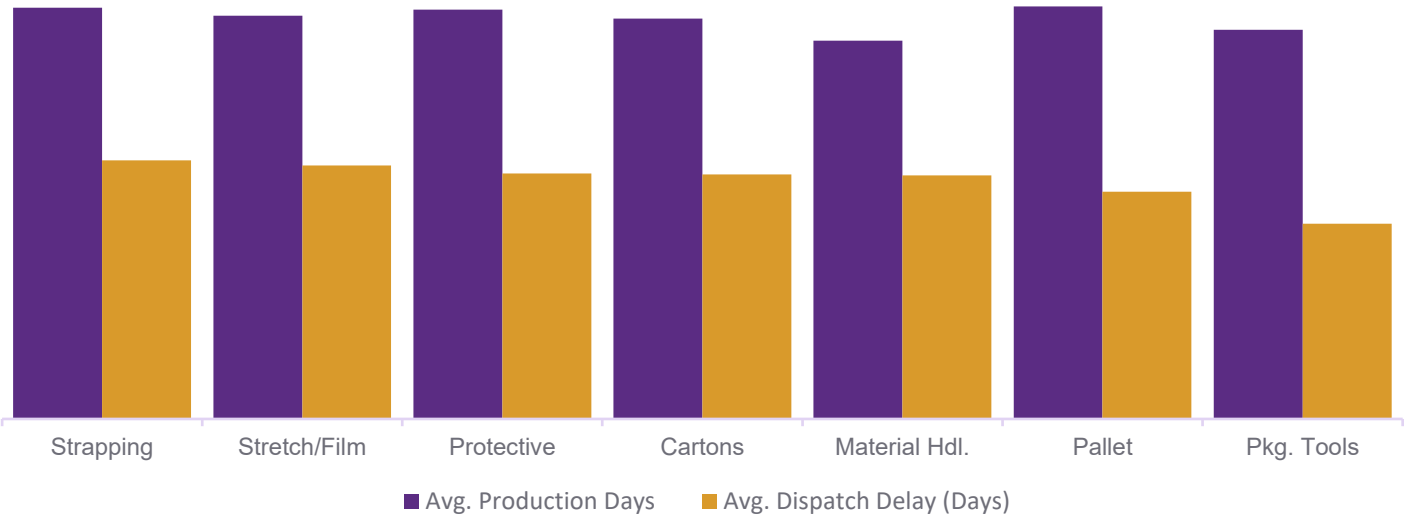

Management should investigate:

Pricing · Discounting · Material costs · Product mix · Production costs

Operations Intelligence

Production Time & Dispatch Delay by Category

SQL OUTPUT · PRODUCTION & DISPATCH

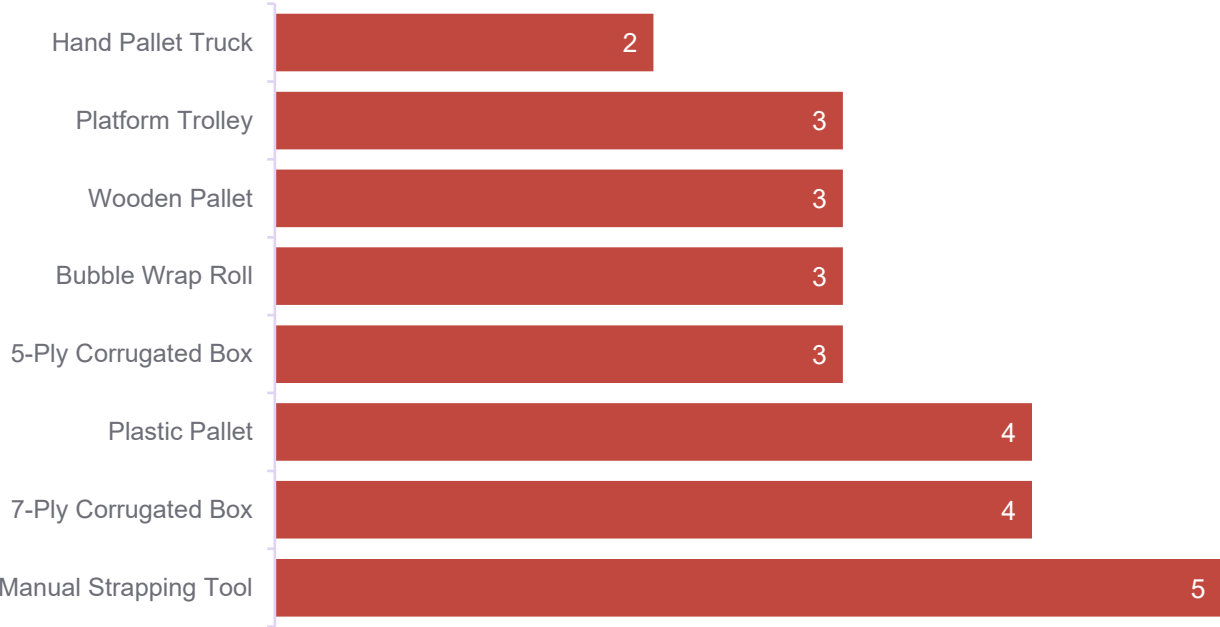

Category	Total_Orders	Avg_Production_Days	Avg_Dispatch_Delay_Days	Delayed_Orders
Strapping Solutions	349	4.09	2.57	212
Stretch / Film Solutions	326	4.01	2.52	186
Protective Packaging	288	4.07	2.44	150
Customized Carton Boxes	373	3.98	2.43	198
Material Handling	116	3.76	2.42	59
Pallet Solutions	227	4.10	2.26	121
Packaging Tools & Equipment	121	3.87	1.94	64

Strapping Solutions and Stretch/Film Solutions combine the longest production times with the highest dispatch delays and delayed-order counts — the strongest candidates for operational review.

Inventory Intelligence

“Which products repeatedly fall below reorder levels?”

Months Flagged "Low Stock" (recurring risk)

Where could stockouts affect fulfillment? These products need tighter inventory planning before they impact dispatch.

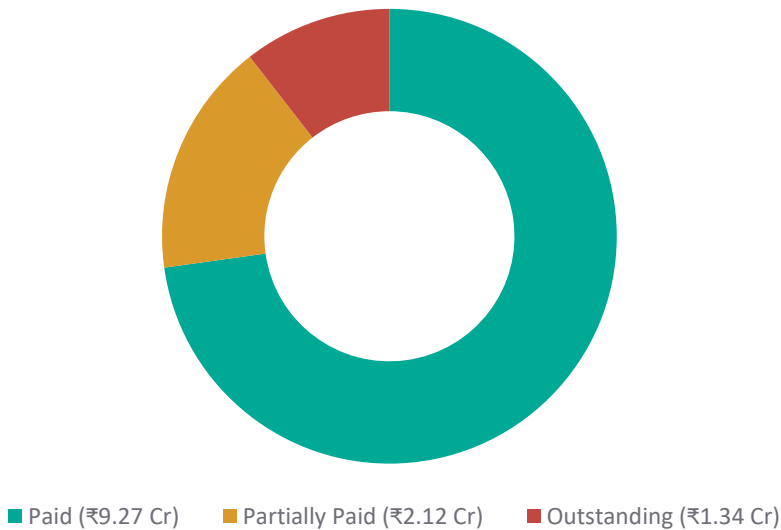

SQL OUTPUT · RECURRING LOW STOCK

Product_ID	Product_Name	Low_Stock_Months
P009	Manual Strapping Tool	5
P012	7-Ply Corrugated Box	4
P008	Plastic Pallet	4
P011	5-Ply Corrugated Box	3
P003	Bubble Wrap Roll	3
P007	Wooden Pallet	3
P013	Platform Trolley	3
P014	Hand Pallet Truck	2
P001	PP Strapping Roll	2
P002	PET Strapping Roll	2
P006	Shrink Film Roll	1
P010	Battery Strapping Ma...	1
P004	EPE Foam Roll	1
P005	Stretch Film Roll	1

Manual Strapping Tool flagged low-stock 5 of 12 months — the clearest candidate for a standing reorder alert.

Finance & Working Capital

Sales Value by Payment Status

Which regions generate strong sales but weaker collections?

Sales growth should be monitored together with cash collection. 211 orders remain fully outstanding — prioritize follow-up on the highest-value accounts above before they age further.

Highest-Outstanding Customers

CUSTOMER	OUTSTANDING	% OF SALES
National Logistics	₹19.1 L	96.1%
Shree Enterprises	₹9.7 L	62.1%
Shree Industries	₹8.9 L	31.7%
United Logistics	₹8.7 L	46.8%
Vertex Industries	₹7.4 L	14.2%

SQL OUTPUT - PAYMENT STATUS

	Payment_Status	Total_Orders	Total_Sales	Amount_Paid	Outstanding
▶	Outstanding	211	13407180.23	736354.22	12670826.01
	Partially Paid	378	21249099.4	12293168.81	8955930.59
	Paid	1211	92728989.27	92728989.27	0

Key Business Insights

1

₹12.74 Cr synthetic sales across 1,800 orders, at a 39% overall profit margin.

2

On-time delivery of ~45% signals fulfillment requires investigation.

3

Sales are concentrated in specific categories and regions — Packaging Tools & Equipment, Material Handling, South, Tamil Nadu.

4

Medium-sized customers contribute the largest share of sales, ~43%.

5

The top 20 of 120 customers already generate close to half of total revenue.

6

Meera leads salesperson contribution — worth benchmarking alongside profitability.

7

A handful of products (Battery Strapping Machine, Hand Pallet Truck, Platform Trolley) combine high sales with below-average margins.

8

Strapping and Stretch/Film categories show the longest production times and highest dispatch delays.

9

Several products — led by the Manual Strapping Tool — repeatedly fall into low-stock status.

10

₹1.34 Cr of sales value remains fully outstanding, concentrated among a small set of customers.

Management Recommendations

Proposed actions arising from the analysis — not claims that the company already follows them.

1

Review categories with high sales but comparatively lower margins.

2

Investigate production bottlenecks affecting dispatch timelines.

3

Monitor on-time delivery as a core operational KPI.

4

Establish recurring low-stock alerts for critical products.

5

Monitor customer concentration and diversify revenue opportunities.

6

Prioritize receivable follow-ups for high-value, high-outstanding customers.

7

Compare salesperson performance using both revenue and profitability.

8

Build a recurring MIS reporting process using standardized KPIs.

Forward-Looking Analytics

Future analytical opportunities this data foundation enables — not completed predictions.

S

Sales Forecasting

Monthly sales forecasting using historical order data.

D

Demand Forecasting

Product-level demand based on quantity & consumption history.

I

Inventory Risk Prediction

Predict which products are likely to fall below reorder level.

R

Delivery Risk Prediction

Identify orders/categories likely to face dispatch delays.

C

Customer Risk Analysis

Identify customers with increasing outstanding balances.

P

Profitability Forecasting

Forecast category-level revenue and margin trends.

These are proposed analytical directions, not delivered forecasts — no projected values are presented as fact in this deck.

BI Roadmap — From Reporting to Decision Support

How this matures into a recurring BI system

Excel + MySQL prove out the KPIs and questions worth tracking. **Power BI** turns them into a live, self-service model. **Automated reporting** removes manual refresh work, freeing capacity for **predictive analytics** — forecasting, risk-scoring — that feeds directly into **management decision support**.

FINAL TAKEAWAY

“Integrated business data can move MIS reporting from static reporting to proactive decision support.”
